The firm

We are a global, dynamic, and innovative law firm, a gold standard in providing comprehensive legal advice

At RCD, we offer our clients personalised legal services with a direct, practical, and high-quality approach. We have a team made up of more than 45 partners and over 400 professionals in Spain and, through the DWF Group, we operate in more than 30 key cities worldwide.

RCD was created in 2003 with the intent to innovate in the legal field and transform a profoundly conservative sector into one that is more open to society, where clients and potential clients can understand the reasoning behind the advice and legal solutions we offer - all with a transparent, ethical, long-term vision, focused on the clients and professionals that make up our company.

Over the years, thanks to our team's talent, the trust our clients place in us, and a management approach consistent with our values, we have become one of the leading law firms in Spain. We also are one of the most active firms in the transactional market.

In December 2019, after a successful collaboration resulting in an exclusive association, we joined DWF, a global legal services company. We aim to transform legal services for our clients through our people by using three main strategic objectives: understanding our clients, engaging our people and doing things differently.
